

## **NOTICE**

DATE: April 12, 2012

ATTN: Clarksville Water Customers in Jackson Road Pressure Zone Area

Clarksville Gas and Water (CGW) will be performing necessary upgrades to a major water booster station site in the Jackson Road Pressure Zone. *(see map below)* During this period a number of new water lines will be installed as well as a new booster station. This project will address current and future water demands for this area. Approximately 30% of the total water system demand moves through this pump station. Completion is scheduled for the 2<sup>nd</sup> quarter of 2013.

The Jackson Road Pressure Zone includes much of the western portion of the water system and includes these areas:

Dover Road, Pollard Road, Cunningham Lane/Northwest High School area, High Point Road, 41-A/Fort Campbell Boulevard, Old Mill Road, 101<sup>st</sup> Airborne Division Parkway, Peachers Mill Road area.

During the project it may occasionally be necessary for CGW to notify customers in this area to voluntarily restrict water use. CGW will notify customers through the Leaf Chronicle, the Clarksville Gas and Water website and the City of Clarksville website.

Today's notice is for public awareness purposes only and it is not necessary at this time to restrict water use.

Thank you for your patience and understanding during this long-term water upgrade project.

Clarksville Gas and Water
